

### CASE FILE

#### STATISTICS: SCIENCE AT SEXEY'S 2020

Outcomes in Physics and Biology GCSE put Sexey's in the **top 1% NATIONALLY for PROGRESS**. In Chemistry, we are in the top 2%.

In Somerset (out of 25 local schools) our Physics teaching contributed to GCSE results of:

- **1st place** for overall attainment grade in Physics
- **1st place** for % of 9s in Physics
- **2nd place** for overall attainment in combined Science

At A Level we have 100% A\*-C in Physics for the last 3 years. Our A Level uptake of Physics is consistently popular, with cohorts of driven and ambitious students. **Current uptake is around 8 students in each Sixth Form class**; these class sizes at A Level are small enough to ensure that teachers can give individual support to students, whilst also big enough to ensure a vibrant class dynamic.

### IN THEIR WORDS: Our Science Teachers say:

"The Sexey's Science department is a cohesive and friendly team: we pride ourselves in the support we offer each other and our culture for continual improvement in everything we do.

"We do all we can to share best practice, and have established systems for the sharing of resources and ideas. Our assessments and feedback routines are consistent through the department and this ensures that time spent reviewing student work has maximum impact on student progress.

"The department is supported by a team of very experienced technicians which enables teachers to deliver exciting and practical teaching.

"It's not all work though. We have a great team of teachers at Sexey's, and an active social life outside of school, if that's what you like. In the staff room, we have cake Wednesday and burn it all off with in-school Fitness Fridays!"
