

## Work experience, industry conferences and networking opportunities

06 January 2023

I would like to bring to your attention several insight events, training, and work experience opportunities available for your son /daughter to access over the coming weeks and months.

Work experience will allow them to learn more about a particular industry and network with people who work in the industry they are interested in. They will be able to use and develop the skills employers are looking for and provide evidence of these skills for their CV or Personal Statement.

Date	Year group	Type	Event
