Occasional Boarding at Sexey's

Heard about the benefits of state boarding and curious about giving it a try?

We understand the importance of maintaining a flexible approach to boarding and now offer full time, part-time and occasional boarding at Sexey's, to fit your family's needs.

What is occasional boarding?

Occasional boarding enables a day student to board up to 14 nights per term – either on a regular basis or just occasionally. This might be especially useful when they are involved in an activity which involves an early start or evening rehearsal.

We are happy to care for students to allow them to stay overnight on an agreed number of days each week, as agreed in advance.
